

For Lean Construction

COMPANY PROFILE

Executive Summary

Oinwan Builders Limited is a fast-growing Tanzanian contracting company specializing in building and civil engineering works. Since its establishment in 2022, the company has become known for its commitment to quality, safety, and reliability in every project it undertakes.

We provide end-to-end construction solutions, from site preparation and reinforced concrete works to drainage, roads, and utilities. Our team of qualified engineers, site managers, and skilled artisans combines local expertise with international best practices, ensuring every project is executed efficiently, safely, and within budget.

At Oinwan Builders, we don't just construct buildings – we build trust, strengthen communities, and deliver long-term value through sustainable and professional project delivery.

About Us

Founded in 2022, Oinwan Builders Limited is a registered construction firm in Tanzania, offering professional building and civil works services for both public and private sectors. We are dedicated to creating lasting value through sustainable construction practices, effective project management, and continuous improvement.

We believe that every project, regardless of size, deserves the same level of dedication and precision. Whether constructing a modern commercial complex or a rural road, we approach each assignment with professionalism, integrity, and a commitment to exceed expectations.

At Oinwan Builders, we measure our success not only by the structures we complete but by the trust we build and the impact we create. Our goal is to leave behind more than just strong foundations – we aim to uplift communities, inspire confidence in our clients, and set new standards for quality construction across Tanzania and beyond.

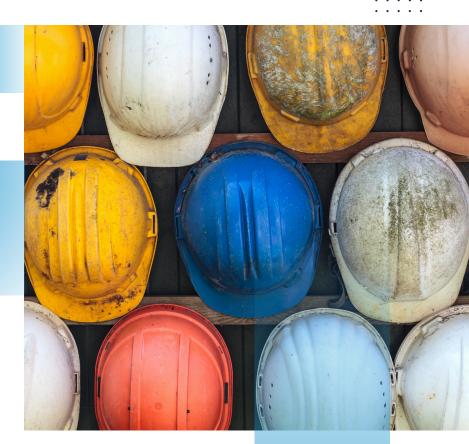

Our Mission

To deliver high-quality building and civil works through competent people, robust systems, and trustworthy partnerships – ensuring projects are completed on time, on budget, and with minimal environmental impact.

To be a leading, trusted construction partner renowned for quality, safety and sustainable delivery across East Africa.

Our Core Values

Q

S

Quality

We ensure every structure stands the test of time through superior workmanship, certified materials, and strict adherence to proven construction standards & practices

Safety

We prioritize our people's well-being by enforcing safety rules, conducting site inspections, and promoting continuous awareness for a zero-incident workplace culture.

Integrity

We conduct all business with honesty, fairness, and transparency, ensuring our clients and communities can always trust our ethical and reliable approach.

C

Client Focus

We value our clients as partners, actively listening to their goals and delivering tailored, cost-effective solutions through open and consistent communication.

Innovation

We embrace technology and modern construction techniques to improve efficiency, deliver sustainable results, and create smarter, more resilient infrastructure for the future.

Teamwork

We achieve excellence through collaboration, uniting our staff, clients and partners under shared respect, accountability, and a collective pursuit of successful outcomes.

OUR SERVICES

0

BUILDING WORKS

We construct residential, commercial, and institutional buildings with full-service solutions covering foundations, concrete frameworks, masonry, roofing, finishing, partitioning, and installations. Our buildings combine functionality, aesthetics, and longevity.

02

CIVIL WORKS

From earthworks and drainage to full-scale road construction, our civil works deliver reliable infrastructure that supports mobility, safety, and community growth.

60

CONCRETE & STRUCTURAL WORKS

Our concrete and structural expertise covers formwork, reinforcement, casting, curing, and repair. We ensure strong, stable, and precise structural performance for every project.

OUR SERVICES

04

UTILITIES & DRAINAGE

We design and install essential services including water supply systems, stormwater management, and sewerage infrastructure, ensuring sustainability and resilience in all environments.

90

PROJECT MANAGEMENT & QUANTITY SURVEYING

Our professional project management team oversees cost control, scheduling, procurement, and site supervision – ensuring projects are executed efficiently and transparently.

90

MECHANICAL & ELECTRICAL SUBCONTRACTING

Through partnerships with specialized subcontractors, we provide integrated M&E services that meet safety standards and complement our construction works.

Commitment to Excellence & Operational Efficiency

Health, Safety & Environment (HSE)

We are committed to maintaining a safe and sustainable workplace for all. Every project site operates under a comprehensive HSE Plan, which includes risk assessments, daily toolbox talks, PPE enforcement, and regular inspections.

Our goal is simple: **Zero accidents, zero harm, and minimal environmental footprint.** We continuously invest in safety training and environmental awareness to ensure compliance with Tanzanian and international standards.

Quality Assurance

At Oinwan Builders, quality is not negotiable.

We apply rigorous quality control procedures at every stage – from material selection to on-site inspections and post-construction reviews. Each project undergoes testing (slump tests, cube tests, inspections) and sign-offs by certified engineers before handover.

Our "Right First Time" philosophy guarantees structures that are strong, safe, and built to last.

Plant & Equipment

To maintain efficiency and control over timelines, Oinwan Builders owns and operates a range of construction machinery and tools, including:

- 20m³ Tipper Truck
- Concrete Mixers (2 units)
- Compaction Equipment
- Scaffolding & Formwork Systems
- Miscellaneous Tools & Site Equipment

This ownership ensures flexibility, reliability, and reduced project downtime.

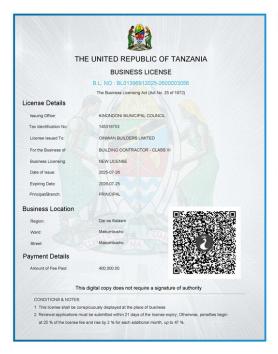

Our Promise

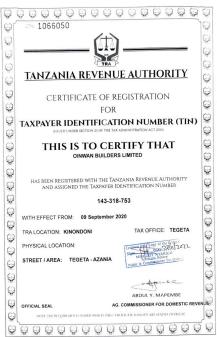

At Oinwan Builders Limited, every project represents a promise, a promise of excellence, accountability, and partnership. We are driven to contribute to Tanzania's infrastructure growth by delivering projects that improve lives, connect communities, and shape a sustainable future.
